

Key data for Ghana

Existing rates of: **Wasting: 4.7%** **Stunting: 18.8%** **Proportion of population underweight: 11%**

Source: Gov. of Ghana (DHS, 2014)

Strong Performance

- Government of Ghana has ensured tenure security for rural populations. Land titling is common and land markets function well. Policy promotes equitable access to common property resources.
- The Government encourages varied agricultural research and extension services, and local farmer organisations are involved in setting policy priorities. The extension system is effective and properly reaches out to poor farmers. Government policies, strategies and mechanisms seek to ensure gender equity in access to extension services.
- Relative to other HANCI countries, Ghana's medium/long term national development policy (Ghana Shared Growth and Development Agenda II (GSGDA) Volume I: Policy Framework) assigns strong importance to nutrition.
- The National Nutrition Policy/Strategy identifies time bound nutrition targets and a multisectoral and multistakeholder policy coordination mechanism has been set up.
- Policymakers in Ghana benefit from regular nutrition surveys that are statistically representative at national level. The last survey was published in 2014.
- The Government has fully enshrined the International Code of Marketing of Breastmilk Substitutes into domestic law.
- The Government of Ghana promotes complementary feeding practices.
- In Ghana 90.5% of women aged 15-49 were visited at least once during pregnancy by skilled health personnel in 2014.
- In Ghana, constitutional protection of the right to social security is strong.

Areas for improvement

- Spending on agriculture (3.65% of public spending in 2014), does not meet government commitments set out in the African Union's Maputo Declaration (10% of public spending).
- Ghana's spending in its health sector (6.8% of public spending in 2014) does not fully meet (15%) commitments set out in the Abuja Declaration.
- In Ghana, the law does not give women legal access to agricultural land equal to men. Men and women have equal economic rights, but this is not effectively enforced and discriminatory practices against women continue, increasing their vulnerability to hunger and undernutrition.
- Ghana does not have a separate budget line for nutrition; this prevents transparency and accountability for spending.
- The Government of Ghana has only achieved two high doses of vitamin A supplementation for 23% of children in 2014.
- Weak access to improved sanitation facilities (14.9% in 2015) obstructs better hunger and nutrition outcomes.
- Social safety nets in Ghana are basic and only cover few risks for a limited number of beneficiaries.
- Civil registration rates are weak (62.5% in 2011) and potentially hold back children's access to critical public services such as health and education.

Hunger Reduction Commitment Index (HRCI)

Public spending	Score*	Year	HRCI Rank of 45
 Public spending on agriculture as share of total public spending ¹	 3.65%	2014	28th
 Public spending on health as share of total public spending ¹	 6.8%	2014	39th
Policies			
 Access to land (security of tenure) ²	 Strong	2014	Joint 9th
 Access to agricultural research and extension services ²	 Strong	2013	Joint 14th
 Civil registration system — coverage of live births	 62.5%	2011	25th
 Functioning of social protection systems ²	 Weak	2016	Joint 8th
Laws			
 Level of constitutional protection of the right to food ²	 Moderate	2014	Joint 8th
 Equality of women's access to agricultural land (property rights) ³	 Not in Law	2014	Joint 41st
 Equality of women's economic rights ³	 In Law, not in Practice	2011	Joint 7th
 Constitutional right to social security (yes/no)	 Yes	2006	Joint 1st

¹ Possible scores are:  <75% of agriculture (Maputo) and health (Abuja) spending pledges  >=75 % and <100%  >=100%

² Possible scores are:  Very Weak/Weak  Moderate  Strong/Very Strong

³ Possible scores are:  Not in Law  In Law Not in Practice  In Law & Practice

Nutrition Commitment Index (NCI)

Public spending	Score*	Year	NCI Rank of 45
 Separate budget for nutrition (No/Sectoral only/Yes)	 No	2015	Joint 29th
Policies			
 Vitamin A supplementation coverage for children	 23%	2014	41st
 Government promotes complementary feeding (yes/no)	 Yes	2014	Joint 1st
 Population with access to an improved water source	 88.7%	2015	12nd
 Population with access to improved sanitation	 14.9%	2015	40th
 Health care visits for pregnant women	 90.5%	2014	27th
 Nutrition features in national development policy ¹	 Strong	2014 - 2017	5th
 National nutrition policy/strategy (yes/no)	 Yes	2015	Joint 1st
 Multisector and multistakeholder policy coordination (yes/no)	 Yes	2015	Joint 1st
 Time bound nutrition targets (yes/no)	 Yes	2012	Joint 1st
 National nutrition survey in last 3 years (yes/no)	 Yes	2014	Joint 1st
Laws			
 ICMSB [^] Enshrined in domestic law ²	 Fully Enshrined	2016	Joint 1st

¹ Possible scores are:  Very Weak/Weak  Moderate  Strong/Very Strong (Note: Performance relative to other countries).

² Possible scores are:  Not Enshrined in Law  Few/Many Aspects Enshrined  Fully enshrined.
